

# Use QR Code & Control Guests Reviews

**Respected Hotelier ,**

I would like to share the new idea of capturing & Monitoring new Guest Reviews by using QR Code.

You probably want to get reviews from the guest about their experience during the stay.

But getting your guests to review your hotel can be challenging, especially if you do **print promotions**.

**Normally guests have to follow a time-taking series of instructions to write a review.**

**But the good news is that you can now use a QR Code to get an instant guest review for your hotel.**

The most convenient way to get your guests' feedback is by printing **a QR code on a table card in each hotel room, on the back of the door, lobby, elevator, restaurant, reception, and so on.**

**Scanning the QR code encourages guests to complete the online survey at their own time.**

**It's a very efficient yet low-cost way to advertise QR codes for your online guest reviews.**

## EXAMPLES:

### 1] Cyberweb QR Code tab looks like :
